## **HYDROLIZED POULTRY FEATHER MEAL**

A good source of natural protein for almost any animal diet. Feather meal can be used to replace a significant portion of other protein sources in livestock and aquaculture diets. It is an excellent source of by-pass protein and sulfur containing amino acids.

### **TAG GUARANTEE:**

- **Crude protein, not less than 80%**
- **Crude fat, not less than 6%**
- **Crude fiber; not more than 3%**
